Infrastructure & Manufacturing Facilities

In 2019 end, we have shifted to our recently built-up hi-tech plant located at Shapar-Veraval Industrial Zone.

New Plant spread across 3 acres & equipped with all required facilities...

As far as In-house Manufacturing facilities concerns. we are having below mentioned start to end facilities under single roof...

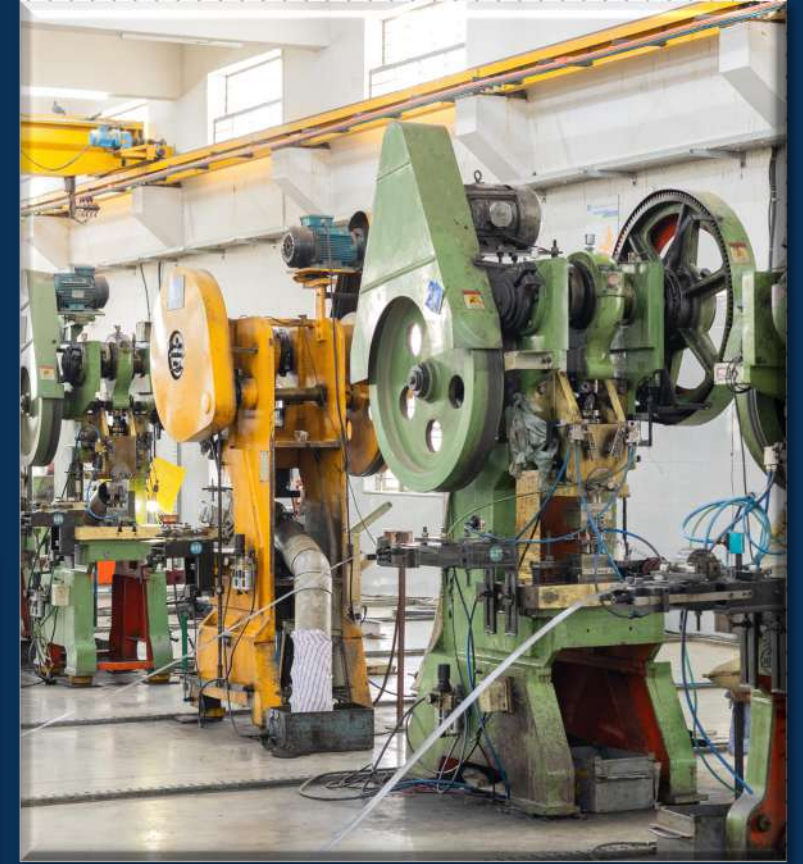

High Speed Robust Press Machines & Progressive Multicavity Dies

Equipped with "Die/tool bank" consist 1700+ dies, to manufacture versatile products on high speed power press machines

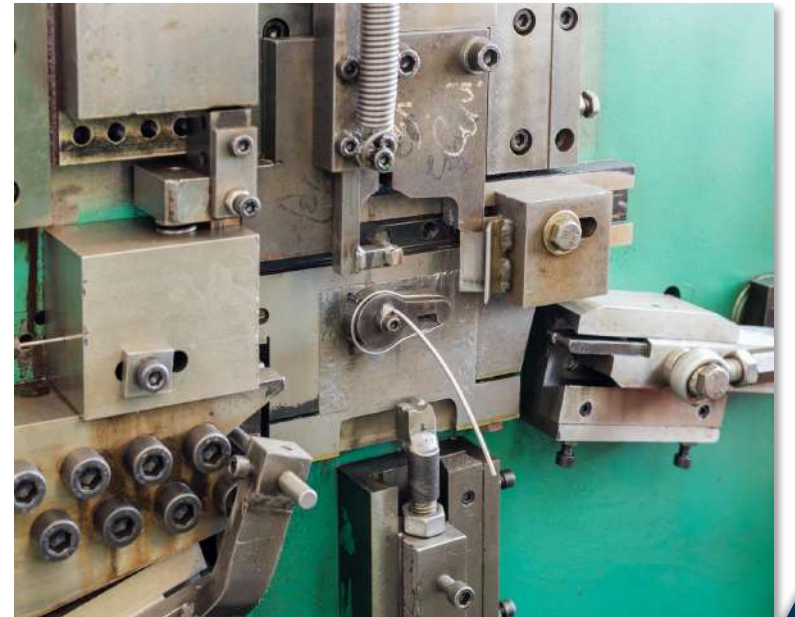

Press Shop Equipped With Coilers, Decoilers & Straighteners

Having 105 Press machines ranging from 5 Ton to 500 Ton to cover all size items manufacturing

Curtain hook cell

Dedicated shop for Stainless steel shower curtain hooks, with production capacity of 2.50 L hooks/day

Spring washer & Wave washer set up

Dedicated line for spring washers from size M4 to M20 and SPM for wave washer forming

Raw Material Storage

Having raw material storage of over 500 Tons and almost 20 various material grades

In House Heat Treatment Facilities

In house Heat treatment shop equipped with oil hardening and Austempering furnaces to heat treat thinnest thickness parts with minimal distortion

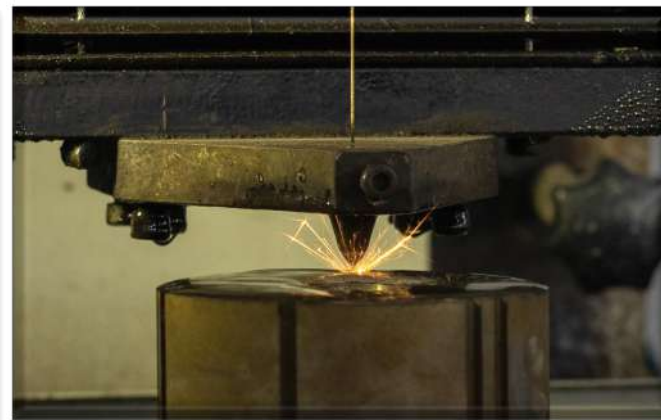

In house Lab Facilities

Laboratory equipped with profile projector, metallurgical microscope, hardness tester, cutting and polishing machine, surface plate, etc...

Tool Room & Die Manufacturing Facilities

In house tool room is capable to develop & manufacture complex dies in very less time with help of wire cut machine, EDM drill machine, milling machine, surface grinder and efficient work force
